

S15 Day Paddles - Lower Keys

Saddlebunch Keys Paddle Information Sheet

Description: An excellent exploration of a huge shallow wilderness mangrove bay for all level of paddlers including canoe paddlers if the wind is light. Launch on an incoming tide. You absolutely need a good tide to explore the mangrove bay. Watch for sharks, rays, starfish, spotted sea hares, and juvenile turtles in the shallow waters of the bay. Also watch for beautiful Bermuda Sea Stars in the shallows crossing the channel between Pelican Key and the Saddlebunch Keys. Please do not handle them, since they are fairly rare. Water clarity ranges from poor to excellent depending on prevailing winds.

Skill Level: Intermediate

Distance/Approximate Time: 8 Miles/ 3.5 Hours

Launch Site: Geiger Key Paddle Launch

Special Considerations: Launch fee. Medium to high tide only. Boat traffic in the channel between Pelican Key and Saddlebunch Key.

Skill Level Definitions

Beginner: New to paddling and may need tips and or instructions about paddling strokes, safety procedures, and entering/exiting kayaks. Comfortable on short trips of 1 to 3 miles on protected waters, when wind does not exceed 5 mph.

Novice: Paddlers acquainted with basic paddle strokes and can manage kayak handling independently in winds not exceeding 10 mph on protected waters. Comfortable on trips up to 6 miles.

Intermediate: Paddlers with experience in basic strokes and some experience on different venues, including some open water. Comfortable on trip distances of 6 to 10 miles, winds not exceeding 15 mph.

Advanced: Seasoned paddlers who possess skills and experience to paddle all venues and conditions. Experienced in self-rescues. Should be comfortable paddling more than 10 miles in a day.

NOTE: Great care has been taken to ensure this guides accuracy, but weather, tides, and water conditions can change rapidly and create hazardous conditions. These maps are for visual reference only, please consult NOAA Charts for navigation. Paddlers should have all proper safety equipment and check conditions before departure. All paddlers should always wear PFDs while on the water, and leave a float plan. There are inherent dangers in any paddle sport. There are special hazards along the Florida coast due to shifting tides, changing wind and weather, shallow waters, and treacherous bottoms with soft mud, rocks, and oyster bars. It is up to each paddler to be aware of these dangers, to accept and be prepared for the risks involved, and to be certain they have the skills to safely paddle in these conditions.
