

S26NR – Nassau River Day Paddles

Upper Nassau River Paddle Information Sheet

Description: This is a long paddle for the more experienced paddler. After launching, head down river past Plummer Creek on your left and down to the confluence of Thomas Creek on your right. After that, you'll pass the I-95 Bridge, followed by the Main St Bridge about 4 miles later. Immediately after the residential area on Pearson Island on your right, look for the first creek on the left (Gardner Creek) which will take you to the Wilson Neck takeout.

Skill Level: Advanced

Distance/Approximate Time: 15.5 Miles/7 Hours

Launch Site: Nassau Landing Ramp

Takeout Site: Wilson Neck Ramp

Special Considerations: Extreme river and tidal currents. Only paddle on an outgoing tide. Don't miss Gardner Creek which goes to the takeout, because the next takeout is 11 miles farther downstream., and it will be extremely difficult to paddle back against the current. GPS recommended. This paddle requires shuttling vehicles.

Skill Level Definitions

Beginner: New to paddling and may need tips and or instructions about paddling strokes, safety procedures, and entering/exiting kayaks. Comfortable on short trips of 1 to 3 miles on protected waters, when wind does not exceed 5 mph.

Novice: Paddlers acquainted with basic paddle strokes and can manage kayak handling independently in winds not exceeding 10 mph on protected waters. Comfortable on trips up to 6 miles.

Intermediate: Paddlers with experience in basic strokes and some experience on different venues, including some open water. Comfortable on trip distances of 6 to 10 miles, winds not exceeding 15 mph.

Advanced: Seasoned paddlers who possess skills and experience to paddle all venues and conditions. Experienced in self-rescues. Should be comfortable paddling more than 10 miles in a day.

NOTE: Great care has been taken to ensure this guides accuracy, but weather, tides, and water conditions can change rapidly and create hazardous conditions. These maps are for visual reference only, please consult NOAA Charts for navigation. Paddlers should have all proper safety equipment and check conditions before departure. All paddlers should always wear PFDs while on the water, and leave a float plan. There are inherent dangers in any paddle sport. There are special hazards along the Florida coast due to shifting tides, changing wind and weather, shallow waters, and treacherous bottoms with soft mud, rocks, and oyster bars. It is up to each paddler to be aware of these dangers, to accept and be prepared for the risks involved, and to be certain they have the skills to safely paddle in these conditions.
