

## Day Paddles and Overnight Camping Trips - Ochlockonee River Area

**Womack Creek Paddle Information Sheet**

**Description:** Launch at Nicks Roadside Camp and paddle down stream. This easy wooded creek is noted for its lack of invasives, slow flow, and minimal tidal action. Continue down to where the creek converges with the Ochlockonee River. Once on the river, it's a short distance down stream to the Womack Creek Campground and takeout on your right.

**Skill Level:** Novice

**Distance/Time:** 4.1 Miles/Approximately 2 hours

**Launch Site:** Nicks Roadside Camp (See Special Considerations below)

**Takeout Site:** Womack Creek Campground at the end of Jeff Sanders Road off CR 67

**Special Considerations:** This Paddle requires shuttling. Nick's Roadside camp may be difficult to reach with low slung vehicles due to the condition of the road.

**Skill Level Definitions**

**Beginner:** New to paddling and may need tips and or instructions about paddling strokes, safety procedures, and entering/exiting kayaks. Comfortable on short trips of 1 to 3 miles on protected waters, when wind does not exceed 5 mph.

**Novice:** Paddlers acquainted with basic paddle strokes and can manage kayak handling independently in winds not exceeding 10 mph on protected waters. Comfortable on trips up to 6 miles.

**Intermediate:** Paddlers with experience in basic strokes and some experience on different venues, including some open water. Comfortable on trip distances of 6 to 10 miles, winds not exceeding 15 mph.

**Advanced:** Seasoned paddlers who possess skills and experience to paddle all venues and conditions. Experienced in self-rescues. Should be comfortable paddling more than 10 miles in a day.

**NOTE:** Great care has been taken to ensure this guides accuracy, but weather, tides, and water conditions can change rapidly and create hazardous conditions. These maps are for visual reference only, please consult NOAA Charts for navigation. Paddlers should have all proper safety equipment and check conditions before departure. All paddlers should always wear PFDs while on the water, and leave a float plan. There are inherent dangers in any paddle sport. There are special hazards along the Florida coast due to shifting tides, changing wind and weather, shallow waters, and treacherous bottoms with soft mud, rocks, and oyster bars. It is up to each paddler to be aware of these dangers, to accept and be prepared for the risks involved, and to be certain they have the skills to safely paddle in these conditions.
