

## Day Paddles and Overnight Camping Trips - Ozello Area

## Mullet Key Paddle Information Sheet

**Description:** Launch from the Ozello ramp hug the left shore and go through the small pass and head NW out to the Gulf. You'll pass the last couple of houses on your left. Continue west then a sharp right northward to the island. You can identify the key by it's white oyster shell mound. Mullet Key is a great spot for a break or picnic, or just to stretch your legs, and has a great view of the open Gulf. Return by the same trail.

**Skill Level:** Novice

**Distance/Time:** 2.1 Miles each way/ 3 Hours Total

**Launch Site:** Ramp at end of Ozello Road (CR 494)

**Special Considerations:** Some open water paddling.

### Skill Level Definitions

**Beginner:** New to paddling and may need tips and or instructions about paddling strokes, safety procedures, and entering/exiting kayaks. Comfortable on short trips of 1 to 3 miles on protected waters, when wind does not exceed 5 mph.

**Novice:** Paddlers acquainted with basic paddle strokes and can manage kayak handling independently in winds not exceeding 10 mph on protected waters. Comfortable on trips up to 6 miles.

**Intermediate:** Paddlers with experience in basic strokes and some experience on different venues, including some open water. Comfortable on trip distances of 6 to 10 miles, winds not exceeding 15 mph.

**Advanced:** Seasoned paddlers who possess skills and experience to paddle all venues and conditions. Experienced in self-rescues. Should be comfortable paddling more than 10 miles in a day.

**NOTE:** Great care has been taken to ensure this guides accuracy, but weather, tides, and water conditions can change rapidly and create hazardous conditions. These maps are for visual reference only, please consult NOAA Charts for navigation. Paddlers should have all proper safety equipment and check conditions before departure. All paddlers should always wear PFDs while on the water, and leave a float plan. There are inherent dangers in any paddle sport. There are special hazards along the Florida coast due to shifting tides, changing wind and weather, shallow waters, and treacherous bottoms with soft mud, rocks, and oyster bars. It is up to each paddler to be aware of these dangers, to accept and be prepared for the risks involved, and to be certain they have the skills to safely paddle in these conditions.
