

S8 Day Paddles - Pithlachascotee River

Middle Pithlachascotee River Paddle Information Sheet

Description: The Pithlachascotee River is lovingly called the "Cotee River" by locals, has it's mouth at New Port Richey. It is primarily an urban river, although it does have some charms. The local paddlers who do not live close to the Cotee, use it primarily during the winter because all rivers block the wind which makes paddling more fun. The first half of the trip winds past homes which line the river. Just past the Madison St Bridge you'll reach Francis Ave Park on your left where you can takeout.

Skill Level: Novice

Distance/Approximate Time: 4 Miles/2 Hours

Launch Site: Millers Bayou - Oelsner Park Paddle Launch

Takeout Site: Frances Avenue Park Paddle Launch

Special Considerations: Heavy powerboat traffic, especially on weekends. For an easier paddle, try to catch an incoming tide. This paddle requires shuttling vehicles.

Skill Level Definitions

Beginner: New to paddling and may need tips and or instructions about paddling strokes, safety procedures, and entering/exiting kayaks. Comfortable on short trips of 1 to 3 miles on protected waters, when wind does not exceed 5 mph.

Novice: Paddlers acquainted with basic paddle strokes and can manage kayak handling independently in winds not exceeding 10 mph on protected waters. Comfortable on trips up to 6 miles.

Intermediate: Paddlers with experience in basic strokes and some experience on different venues, including some open water. Comfortable on trip distances of 6 to 10 miles, winds not exceeding 15 mph.

Advanced: Seasoned paddlers who possess skills and experience to paddle all venues and conditions. Experienced in self-rescues. Should be comfortable paddling more than 10 miles in a day.

NOTE: Great care has been taken to ensure this guides accuracy, but weather, tides, and water conditions can change rapidly and create hazardous conditions. These maps are for visual reference only, please consult NOAA Charts for navigation. Paddlers should have all proper safety equipment and check conditions before departure. All paddlers should always wear PFDs while on the water, and leave a float plan. There are inherent dangers in any paddle sport. There are special hazards along the Florida coast due to shifting tides, changing wind and weather, shallow waters, and treacherous bottoms with soft mud, rocks, and oyster bars. It is up to each paddler to be aware of these dangers, to accept and be prepared for the risks involved, and to be certain they have the skills to safely paddle in these conditions.
