

S23 Day Paddles - ICW

Spruce Creek Paddle Information Sheet

Description: The Spruce Creek paddling trail offers a 16-mile round trip starting at Volusia County's Spruce Creek Park and the Strickland Bay Bridge. From a large water body and salt marshes to a tree-lined creek upstream, the journey is varied and interesting-giving paddlers views of wildlife, several natural communities and prehistoric sites, including a major earthen mound. Between Interstate 95 and the railroad bridge, visitors will find the Doris Leeper Spruce Creek Preserve on both sides of the river

Skill Level: Intermediate

Distance/Approximate Time: 7.6 Miles/3 Hours

Launch Site: Cracker Creek Paddle Launch

Takeout Site: Spruce Creek Preserve Park and Campground Paddle Launch

Special Considerations: Launch fee at Cracker Creek. Paddle at medium to high tide due to shallow water and mud at the takeout. Medium portage to vehicles at the takeout. This paddle requires shuttling vehicles.

Skill Level Definitions

Beginner: New to paddling and may need tips and or instructions about paddling strokes, safety procedures, and entering/exiting kayaks. Comfortable on short trips of 1 to 3 miles on protected waters, when wind does not exceed 5 mph.

Novice: Paddlers acquainted with basic paddle strokes and can manage kayak handling independently in winds not exceeding 10 mph on protected waters. Comfortable on trips up to 6 miles.

Intermediate: Paddlers with experience in basic strokes and some experience on different venues, including some open water. Comfortable on trip distances of 6 to 10 miles, winds not exceeding 15 mph.

Advanced: Seasoned paddlers who possess skills and experience to paddle all venues and conditions. Experienced in self-rescues. Should be comfortable paddling more than 10 miles in a day.

NOTE: Great care has been taken to ensure this guides accuracy, but weather, tides, and water conditions can change rapidly and create hazardous conditions. These maps are for visual reference only, please consult NOAA Charts for navigation. Paddlers should have all proper safety equipment and check conditions before departure. All paddlers should always wear PFDs while on the water, and leave a float plan. There are inherent dangers in any paddle sport. There are special hazards along the Florida coast due to shifting tides, changing wind and weather, shallow waters, and treacherous bottoms with soft mud, rocks, and oyster bars. It is up to each paddler to be aware of these dangers, to accept and be prepared for the risks involved, and to be certain they have the skills to safely paddle in these conditions.
